Summary

Hardworking, detail oriented full stack developer candidate skilled in writing clean, testable code. Quick learner and positive person who thrives on new challenges and opportunities. Experience with modern tooling and excited to pick up the right tools for the job.

Skills

Front-End: JavaScript, React, Redux, React Native, Enzyme, jQuery, HTML5, CSS3.

Back-End: Node.js, MongoDB, Mocha & Chai, Passport, PostgreSQL, REST APIs 3.

Dev Tools: Git, GitHub, NPM, Chrome Dev Tools, Heroku, Travis CI, mLab, Postman.

Recent Projects

[SLP Student Tracker](#): is an app made for Speech-Language Pathologists to keep track of students progress by recording a SOAP note. Built with React, Redux, Node, Express, and Mongo.

[DothraKit](#): uses a spaced repetition algorithm to ensure you are learning efficiently. The rules are simple: learn the word, get it right, you live. Or else...well, best not to get on Khal's bad side. Built with React, Redux, Node, Express, Mocha/Chai, Enzyme and Mongo.

[Game-A-Tron](#): is a web application that helps people to gamify their lives. Players are able to create and play games. It was a collaborative project with four of us. Built with React, Redux, Node, Express, Mocha/Chai, Enzyme and Mongo.

Work Experience

Security Signs - Aluminum Sign Fabricator 2018

- Collaborate with Project Managers, Designers, and other co-workers in Production to build signs
- Built signs proficiently by using the right tools and best materials for the job

Steamboat Ski Resort - Master Ski Lift Mechanic 2009 - 2016

- Started as a helper and worked up to Master Mechanic running a maintenance team for the mountain.
- Minimal downtime of detachable and fixed grip ski lifts under my maintenance supervision.
- Ability to follow procedures and interpret schematics from various manufacturers to inspect, repair, and maintain every aspect of a ski lift.

Education

Thinkful - Engineering Immersion

March 15th, 2019

- Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, and algorithms & data structures.
- Created and deployed mobile-first applications while learning new languages and frameworks by collaborating several hours every week with a senior web developer.
